

## Energy that rocks: the Lake Brienz Rock Festival relies on GIFAS equipment

Smooth operation thanks to a reliable power supply

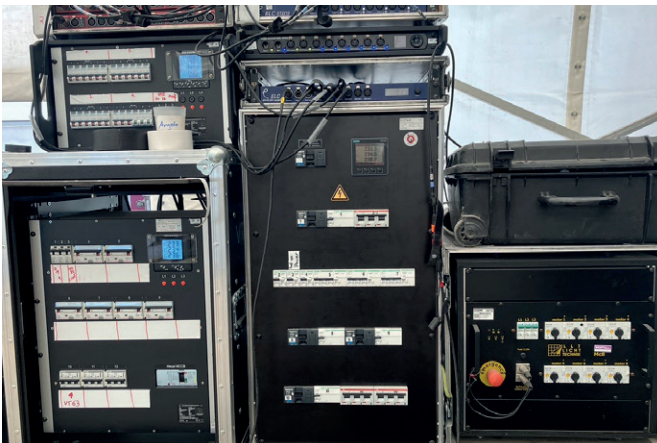

<b>Customer/installation engineer:</b>	energiecheck bern ag, 3856 Brienzwiler
<b>Stipulation:</b>	Power supply with consumption measurement
<b>Solution:</b>	Case/Rack 19" 400A mobile
<b>Article:</b>	Item no. 252969
<b>Quantity:</b>	1
<b>Equipment:</b>	Sockets CH and CEE standard, PowerSAFE high-current plug connection, current transformer, multi-meter, fuse protection
<b>Areas of application:</b>	Media and entertainment technology: event locations (music, theatre)

### Initial situation

A mobile case from GIFAS is now being used at the Brienzensee Rock festival to keep an eye on power consumption and to safely monitor the connected consumers. Equipped with a powerful multi-meter, it guarantees a smooth process and precise data – perfectly matched to the requirements of a demanding event. This way, the energy stays where it belongs: in the music and in unforgettable moments.

### Customer benefits

- straightforward installation/commissioning
- low installation costs, quick amortisation
- practical handling (mobile)
- measurable energy consumption
- function monitoring
